Igniting Curiosity

Cognitive science and instructor observations indicate that a strong sense of curiosity is the key to student engagement and developing a lifelong passion for learning. Curiosity is invaluable in igniting our enthusiasm for the work we do. It is the driving force behind all creativity - the desire to do something better, experiment, tinker, and create. How can educators encourage students to cultivate their curiosity to ultimately assume responsibility for their education? This **Faculty Development Day**, we invite you to share your best ideas. Explore, share, and collaborate to ignite your curiosity and try new teaching and learning approaches.

Event Date: January 5, 2023
Time: 8:30 a.m. - 12:00 p.m.

FDD will be a virtual event

Reminders

- Make sure you update your Zoom client software to the latest version.
- Sign in to Zoom with your Saint Leo username and password. Only users with authenticated Saint Leo accounts will be granted entrance into the presentations.
- For assistance with technical issues (Zoom, computer audio, camera, etc.), call DoIT at (352) 588-8888.
