Okta, Inc.

#22 in Business

★★★★★ 3.5 • 38 Ratings

Free

Open the app and follow these steps:

1. Select *Getting Started*
2. Select *Next*
3. Select *Add Account*

Now Select *Organization*

Select *Skip*. Now you are ready to complete the set up on your computer.

Now open your computer and login to your Okta account.

The screenshot shows the Okta My Apps dashboard for a user named Greg at Saint Leo University. The interface includes a search bar at the top, a navigation sidebar on the left, and two main sections for app tiles: 'Recently Used' and 'My Apps'. The 'Recently Used' section contains tiles for Workday, Courses, Smartsheet, Office 365, and TCPPdesk. The 'My Apps' section contains tiles for Saint Leo University Mail, Office 365, Smartsheet, Workday, and Saint Leo University OneDrive. A 'Sort' button is visible in the 'My Apps' section. The user's last sign-in time is noted as 16 minutes ago.

Open the drop-down arrow in the upper right-hand corner and Select “*Settings*”

The screenshot displays the Saint Leo University dashboard interface. On the left is a navigation sidebar with the university logo and menu items: My Apps, Recently Used, Home, Students, Employees, Resources, and Add section (+). The main content area features a search bar and a 'Recently Used' section with app tiles for Zoom, Courses, and Workday. In the top right corner, the user's name 'Greg Saint Leo University' is shown with a dropdown arrow. This arrow is highlighted by a red arrow labeled 'Step 1'. The dropdown menu is open, showing options: Greg Kunzweiler (with email greg.kunzweiler@saintleo.edu), Settings, Preferences, Recent Activity, and Sign out. A second red arrow labeled 'Step 2' points to the 'Settings' option in the dropdown menu.

Scroll down to *Extra Verification* and click the *Set up* Button for Okta Verify

✓ Extra Verification

Extra verification increases your account security when signing in to Okta and other applications you use

Okta Verify

Set up

Select *Setup*

 SAINT LEO
UNIVERSITY.

Set up multifactor authentication

Your company requires multifactor authentication to add an additional layer of security when signing in to your Okta account

 **Okta Verify**
Use a push notification sent to the mobile app.

[Setup](#) 

Scroll Select *iPhone* or *Android* depending on your phone and click *Next*

Setup Okta Verify

Select your device type

- iPhone
- Android

Download [Okta Verify from the App Store](#) onto your mobile device.

[Next](#)

If it asks you to add an account from another device, click skip
Now click “Yes, Ready to Scan”
Now point your phone at the QR Code on your computer screen.

Now let's allow Okta Verify to show notifications. Select *Got it* and then *Allow*.

Then Select *Done*

You're all set up now. Log out of Okta on your computer.
