

A photograph of several students in a laboratory setting, wearing blue gloves and using pipettes to transfer liquid into small vials. They are working at a long lab bench with various equipment and supplies.

BECOME A STEM TEACHER!

STEM SCIENCE • TECHNOLOGY • ENGINEERING • MATH

Students who love biology and math have more career options than ever before. Saint Leo can make becoming a STEM teacher a reality.

WHY BECOME A STEM TEACHER?

- Impact the lives of children and young adults who share your passion for science, technology, engineering and math.
- High-demand profession current teacher shortages in science and math translate into greater opportunities for STEM teachers.
- New advancements in STEM education community.

TWO PATHWAYS TO GET THERE

PATHWAY 1: Freshmen-year college students choose a major in biology or math, plus a minor in education.

PATHWAY 2: College students who have already earned their undergraduate degree in a STEM can acquire certification through Saint Leo's EPI – Educator Preparation Institute – an alternative certification program.
